

Age 50-64

A high percentage of 50-64 year olds are found in the older suburbs that were built mostly in the 1960s. The Rockbrook area is a good example of this type of suburb. As with the Ponca Hills, the area is prosperous and the residents can maintain larger houses without children.

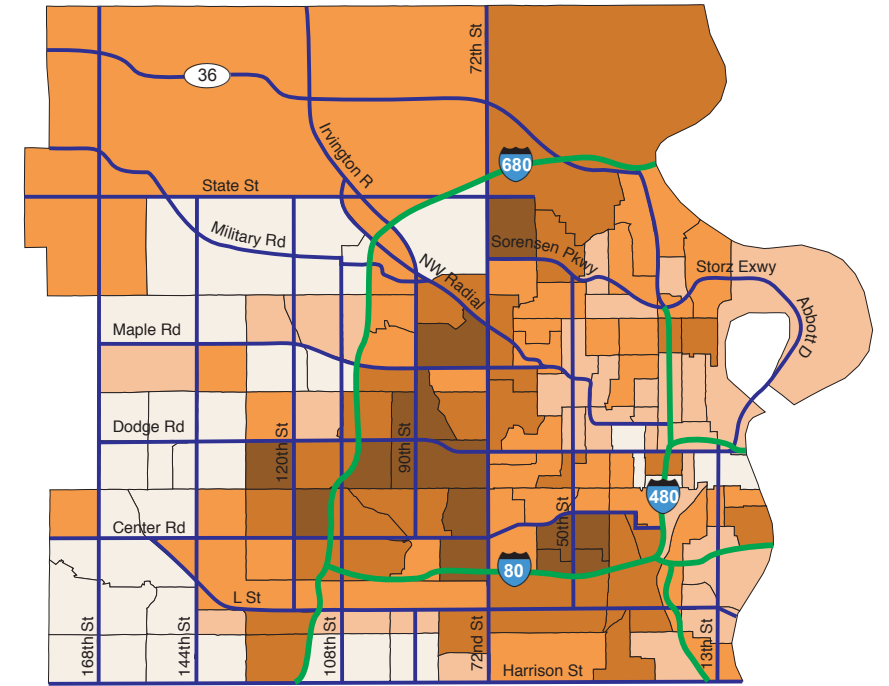

Age 50-64 in %

Age over 64

The over 64 population is concentrated between 72nd Street and I-680. Retirement homes in this area, particularly at Northwest Radial and 72nd Street, increase the percentage of the population in this category for particular areas.
